### **Charity Project**

This year too we have undertaken a water related project in the district of Puttalam. We hope to provide a deep well, water tank, pipe lines and taps for fresh water for drinking and sanitation purposes for the students of Mangalaeliya Junior School, Puttalam under the supervision of the Principal. The villagers in the area too could use water from this unit for drinking and cooking purposes. The request has been sent to us by the Principal of the school who has collected all the necessary documents and has the sanction of the government to commence the project.

### **School Project**

We have decided to refurbish the School Chemistry Laboratory which is used on a daily basis by many students. As you are aware, many of our students perform extremely well in competitive examinations at national level while several obtain island and district ranks. Accordingly, we hope to offer assistance to our Science Stream students as well in reaching higher levels.

Contributions in the form of e-banners, advertisements in the souvenir, gift vouchers or cash donations for these worthwhile causes are most welcome! Please feel free to contact the association for further details.

### **Membership Directory**

Please fill up the attached form pertaining to your personal and contact details that would help us in updating the membership directory.

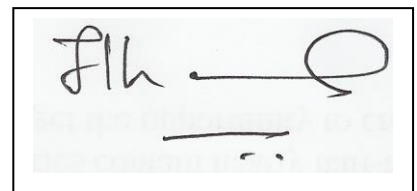

Our next newsletter will reach you after the above-mentioned events.

See you at the 'Gatsby Night'!

Best regards,
